

Acura of Brookfield

Exclusive **Xzilon** appearance protection

Congratulations on your vehicle and THANK YOU for choosing us!

Xzilon is a carbon ceramic coating with graphene that is applied to the interior and exterior of your vehicle, designed to protect its appearance, eliminate the need to wax, and keep it looking nicer, newer, longer, with less effort and cost on the owner.

This carbon ceramic coating is applied on all painted body panels, wheels, glass, headlights, carpet, floor mats and interior seating surfaces.

Once application occurs, Xzilon will aid in the vehicle's exterior retaining its luster and shine. This will also immediately provide resistance to paint/clear coat damage from bugs, bird droppings, environmental hazards, and water spots; and these things will wash away easier in automatic car washes. Additionally, it will resist brake dust accumulation on alloy wheels and water will "bead" off the windshield and paint as if it was freshly waxed.

The interior will resist stains from spills, fading, cracking or splitting, and be substantially easier to clean if something were to spill once protected.

With the purchase of Xzilon you receive a 7 year, unlimited mile, 0 deductible, no limit warranty that will arrange and pay for covered repairs if your vehicle sustains damage caused by any listed issues in each of the respective "compare" columns to the right.

Non-Toxic
Kid & Pet Safe
No VOCs

The Xzilon warranty pays to repair any of these damages to your vehicle!

NO Deductible
NO Claim Limits
NO Dollar Limits
